

16th Annual Charity Golf Tournament

# Call to all Auction Sponsors

Friday, September 20th, 2013

For the Past 15 Years, Our Sponsors and Donors Have  
**Given Dreams a Chance to Grow!**

Over \$38K raised in 2012 for VHF - Left to Right: Chris Searle, Holly Cade (Event Manager), Deanna Brownell, Becky Anderson, Mike Spooner (Event Chair), Resa Birley, Lance Abercrombie (VHF Board Member)

On September 20th, 2013, we will host the 16th Annual Charity Golf Classic at the prestigious Royal Colwood Golf Club. We are extremely proud of our community's support and generosity, which has enabled us to donate more than \$545,000 to the Victoria Hospitals Foundation (VHF) over the years. This has provided VHF with the means to purchase a variety of advanced technology equipment for the Neonatal Intensive Care Unit at the Victoria General Hospital. The Victoria Hospitals Foundation is a fundraising partner with the Vancouver Island Health Authority, and raises funds annually for priority medical equipment and special projects at Vancouver Island's two largest hospitals; the Royal Jubilee and the Victoria General.

## Donor Acknowledgement

All donors will receive formal acknowledgement for their contributions in our tournament auction catalogue and on our tournament website, located at: [www.hospitalcharitygolf.com](http://www.hospitalcharitygolf.com)

We would like to take this opportunity to thank the organizations who  
graciously contributed to our 2012 Auction!  
We couldn't have done it without you!

## This Year's Goal

Victoria General Hospital (VGH) is home to the only Level III Neonatal Intensive Care Unit (NICU) on Vancouver Island. Of the more than 3,000 babies born at Victoria General each year, nearly 600 of them are premature and require the continuous observation, monitoring and intensive nursing this unit provides.

This year the Charity Golf Classic is raising funds for the Victoria Hospital Foundation to purchase an Open Care Unit. Premature and critically ill babies are extremely fragile and require specialized, attentive care. In an Open Care Unit, the baby lies on a mattress with a temperature sensor on his or her abdomen. Transparent shields on all four sides minimize heat loss and a heat lamp directs heat towards the baby. The unit is open and the heat lamp is placed well above the baby, this gives plenty of room for parents to touch and comfort their child and for caregivers to maneuver equipment and perform tests and procedures. This means the baby does not need to be moved out of the unit for many of the tests and procedures, which is less disruptive. The Open Care Unit will be used at Victoria General Hospital, in pediatrics in the labour and delivery room.
